The Circulation of The Bulletin

The Bulletin has the largest circulation of any paper in Eastern Comnecticut and from three to four times larger than that of any in Norwich. It is delivered to over 3,000 of the 4,053 houses in Norwich, at I read by ninetythree per cent of the people. In Windham it is delivered to over 900 houses, in Putnam and Danielson to over 1,100 and in all of these places it is considered the local daily. Eastern Connecticut has forty-

nine towns, one hundred and sixty-five postoffice districts, and sixty rural free delivery The Bulletin is sold in every

town and on all of the R. F. D. routes in Eas Connecticut

TIME FOR CLEAN-UP WEEK.

The time is approaching when some thought must be directed towards the organization of a cleanup week or ampaign if one is to be held this allowed for perfecting the details and organization. Phere were good results from the inauguration of the plan last and personal participation therein, any year, but it is not to be supposed that more such tragedies. one frial will develop all the interest possible or bring out the best in such an undertaking. The greatest value in

thereby an important step towards the the best results.

The clean-up campaign is one which it is declared that fully two hundred cities and towns are organizing for the purpose of devoting a week during the next month or so to making the places cleaner, healthier and more attractive both for those who live there and for visitors and traders. Such a manifestation of interest in home and city has an endless number of commendable features. There are a great number who will do it anyway, even to adding the paint-up to the clean-up idea, but it is through an organized effort that the best results can be obtained. Norwich has seen benefits from its last undertaking, but it still has oppertunity for much more improvement, and it is none too early to begin to think about it.

MUST PREVENT HUMILIATION.

felt itself in a peculiar position because of the manner in which its laws and justice have been circumvented in the Thaw case but it must also have been awakened to a determinathat both justice shall be carried out in accordance with the decisions which have been given and that the legislation necessary to prevent such a situation in the future shall be enacted. This case has been the cause of large expense to the state and the end is not yet, but it is an expenditure which the state must recognize as necessary for the maintenance of respect for such laws as i has. Many will recoil when their pocketbooks are affected and for this reason an effort is being made to bring influence in New York against the further pursuit of Thaw through a peti-tion asking the assembly to refuse to permit further expense for Jerome and other counsel

Such a petition is one which deserves no consideration. The return of Thaw to New York state is a duty which rests upon the state and regardless of the expense as long as le gitimate, no steps should be left untaken. Thaw and his money have played with the Empire state for many years and the experiences have pointed to the need of better laws for the administration of justice and these are likely to be obtained but it should never be attributed to a penurious state assembly that money could be made to warp justice and secure freedom for a notorious criminal.

CHANCE TO COMPARE.

While concessions have been made by the government in reaching the agreement with the New Haven road for a breaking up of the system they are far less than those which have been agreed to by the chairman of the system. No concession has been made by the department of justice which was not entirely justified and for the best interests of the roads which are concerned. An insistence upon their demands without such concessions would have been placing an uncalled

for penalty upon the innocent. The granting of more time for the dissolution and sale of subsidiaries. with the chance of extension by court permission, still leaves New England facing the results of the forced breaking up of its transportation system. The outcome is uncertain, but as the New York Times says: "That rallways operating separately can serve the public better than when combined is contrary to all experience. The reduction of railway rates in the era of con-solidation has been due to the combinations which have been formed.
When combination is formidden the come of competition must be paid, and paid not in rates alone. The result of the separation of these links in the

New Haven combination will be repeated when other links are separated. Efficiency will be reduced. Costs will be increased. The higher rates for worse service must be paid, or even that inferior accommodation will not

that inferior accommodation will not be supplied. This was not what was promised when the campaign against the railways was begun as blithely as that against the trusts. It was not what was intended."

Much food for future thought and action promises to be provided by the course which is being followed with the transportation system in New England. The chance for the comparison of the value of one system made up of a number of units or of a number of separate competing lines is promised by the agreement.

AN IMPORTANT ENGAGEMENT.

Reports from Mexico concerning the clash of the forces of federals and rebels near Torreon indicate a realization on both sides of the Importance of the contest which has been begun. It is a battle upon which has seen begun. It is a battle upon which has been begun. It is a battle upon which has greated as the forces of depends, and it is for the purpose of

depends, and it is for the purpose of gaining every advantage which is af forded by a favorable outcome that each side is straining every nerve.

The uncertainty of the first reports

adds to the difficulty of interpreting the progress which is being made but if the early and bloody struggles are true indication of strength General Villa has met the hardest proposition in his campaign and if he wins it will be as the result of superior generalship and fighting skill. The later reports while favorable to the rebels, indicate the severity of the combat and the large loss of life. To the federals there is the double problem of not only resisting the attack of the constitutionalists but of guarding against desertions from their ranks. How coexecution of a number of skilled artillerymen who had been pupils of the rebel chief of artillery, for fear that they would desert and become of great assistance to the forces of Villa. Thus will the result of Torreon have a most important effect upon the Mexican sitnation not only in the victory to be be unsatisfied and wavering, and still the slightest impression on me. None whatever! You get beyond those tribe in the city by the end of the month will not be the easiest jub that here.

AN ANNUAL REMINDER.

The suggestion which has been made hat Triangle day be recognized in various ways for keeping in mind the observance of law requirements, fire driffs in schools and factories is certainly based upon the needs in that direction. Such a plan means the bringing to mind each year not only the frightful loss of life which resulted from the conditions which prevailed in spring and a sufficient amount of time that shirtwaist factory but keeps fresh the much more important necessity of preventing through observance of laws

It isn't to be supposed that it will be sufficient to give publicity to such an important matter on just one day such an effort for the cleaning up and in the year and get the benefit from it which is needed, but every effort in tification of a city, hes in keeping that direction will serve to keep be steadfastly at it each year. Thus is fore the people the dangers which are it possible to not only sustain but into be expected from a lack of safeto be expected from a lack of safeto be expected from a lack of safeguards and a failure to perfect the
guards and a failure to perfect the
drills. Most every city has had an example in proportion to its size which ranks with the Triangle catastrophe has made a strong appeal throughout and which serves a similar purpose if the country. In New England alone securing provisions against a repetisecuring provisions against a repetition but the importance of keeping it in the public mind as a thing to be avoided cannot be too lightly regarded. Whether it is in the school or the factory constant attention to the safe-

to bet on him Huerta ought to be offering to hold the stakes.

A cheap substitute for coal has long held out tempting offers to the inventor who will produce it, but it is not an unattractive fortune which awaits the fellow who will invent some means of dissolving fog.

AN UPSET ROMANCE

why, aimer must have been done something perfectly awfull?" interrupted the girl on the cushlons, excitedly hitching nearer, "What was it?"

The young person eating chocolates sighed deeply.

"I shouldn't feel that I could explain to you about it," she murmured, "ex-cept that it is my duty to warn you! Never trust a man! Elimer was so different from the others I have met in life. For one thing, he was much older and more experienced. You know

that he—"
"Oh, he's awfully grown up!" agreed
the giri on the couch. "He was 17 his
last birthday party! And he's so tall
that when you walk, behind him you
can't tell whether it's himself or his
older hother and his brother is in older brother-and his brother is in "Elmer wears the grandest over-

coat-" chimed in the girl on the sofa pillows. "I adore it!" "Do you?" inquired the blighted young person on the window seat, a trifle stiffly. He could wear a million overcoats now, and they wouldn't make always seemed to have such grand ideals! He never got silly like the other men—I couldn't begin to tell you of all the beautiful things he has said to me—in notes, of course. He wrote the most wonderful quotations! There

the most wonderful quotations! There was one about a jug of wine and loaf of bread beneath the bough and thoubeside—me—! can't just remember it—that almost made me cry, it was so beautiful and so touching!"

"Does Elmer drink?" queried the girl on the sofa cushions in awed tones.

"Didn't I say it was a quotation?" demanded the blighted one scornfully.
"I should say not! And he was always writing things about sunkissed hair and flowerlike faces and starry eyes—oh, in the lovellest way, you can't oh, in the lovellest way, you can't es-on, in the lovelest was, you can't usgine! He'd never talk about them hen I mentioned what he wrote ough, just got red and say, 'Huh!' or mething like that, but of course I derstood. There are some things to say, talk about?"

"Yes, indeed!" signed the young per-

"I suppose," concluded the young person on the window sill. "I shall walk alone the rest of my life but these troubles come to every one! Using my quotations on Isabel! There is nothing sacred to some men! He may be happy with her, but he'll think of me at times—in the twilight—" 'Don't cry.' begged the girl on the sofa pillows. 'He isn't worth it! He'll repent some day when it's too

"Do you really think so?" asked the blighted one eagerly. "I hope he feels perfectly awful when he does! And, anyhow—I'm going to show Isabel all his notes!"—Chicago News. Andy's made so much money out of armore plate an' battle ship decks he don't see no use in fightin' any more.

"So he says to them lords and dukes us Americans 'll take all th' schoolbooks tellin' how George Washin'ton licked th' British an' burn 'em up. Them as can't be burned up he's gonna perform a operation on.

OTHER VIEW POINTS

An exchange suggests that a good way to reduce the cost of living is to start a vegetable garden. This should prove much more effective than petitioning congress for remedial legislation.—Rockville Journal.

Now of course the proper thing for the Suffragists to do is to beat up a few members of the senate and burn a number of public buildings because of the legislative defeat of suffrage. therwise the English sisters will de nounce the American seekers for the ballot as weak vessels.—Ansonia Sent-

As Chairman Elliott puts it "Bus iness, particularly that of transporta-tion, in New England needs help and co-operation from the people, govern mental agencies, State and national, and the press, and a chance to go ahead." If this co-operation and chance to go ahead shall prove to have been gained by the concessions made, the incidental sacrifices will be fully justified.-Bridgeport Standard.

Whatever may be said of the actions of the rairoad company in the past it is very desirable that the transporta-tion facilities of the state should be continued on a strong basis and this would not be done if the financially crippled railroad company was to be jumped on by the government at a time when the company was doing time when the company was doing penance for its offenses and was trying to replace himself on a sound footmg.-New Britain Herald

"Entrapped" was rather a strong ty of human life must be given and frequent tests made, but when it is realized how many lessons are provided almost daily throughout the country from which little profit is gained because they are quickly forgotten, the worth of the annual reminder can be appreciated.

EDITORIAL NOTES.

With the putting aside of militarism the curse of the people, comes a change Government cases to be a war machine, a huge engine of possible destruction, and becomes a business concern, an agent of production.

We are already perceiving that the function of the nation and of the state is primarily and chiefly to arrange for and to maintain, in justice to all, the proper distribution of the wealth that flows from the land.

The land of the New Haven road directors, but they must feel as if they were. If they surrender more property than the law actually requires them to, they may have angry stockholders to reckon with; if they oppose the government too stubbornly, they may bring on rulnous litigation under the antivative and to maintain, in justice to all, the proper distribution of the wealth that flows from the land. publican.

Our own idea is that the law on deer should be repealed and that they might be exterminated without and real harm being done to anyone. In fact, they have become pretty well exterminated, by the illegal hunting of them. We also believe hat the law in regard to foxes should remain much as it is now. We agree with the members of the Winsted Fox Club, that Connecticut is a too thickly populated state to have a law protecting deer, and we also think that the same rule applies with equal force to the fox question. Bristol Press.

Physical training is being agitated for the ordinary schools of the present day. The old time physical training day. The old time physical training in the school yard, by the way, has never been equalled as yet and it is
